ABOUT US

We are a Dubai-based waterless car washing company registered with the Dubai Economic Department. We provide professional waterless car washing services across the United Arab Emirates. Since September 2025, we have been providing high-class, quality waterless car washing services across the region.

The company is driven by a deep environmental commitment that pushes us to acquire the newest eco-friendly car wash technology, backed by quality management and highly trained car washers. We utilize biodegradable compounds to promote a truly sustainable, waterless car washing system.

OUR SERVICES

"Service is our main motive and agenda." This idea is central to our United Arab Emirates locations, which were created entirely with the customer in mind. Everything—from the staff to the services to the layout of our operations—is fostered to give the ultimate experience.

We at Shams Al Huda Car Wash serve residential, commercial, governmental, and public areas across the United Arab Emirates. We have been a specialized car washing service provider in the UAE from the year we started in September 2025.
